

WE CLAIM

1. A composition comprising:
 - (a) soynuts;
 - (b) at least one non-monosaccharide sugar; and
 - 5 (c) at least one pesticide.
2. A composition according to claim 1 further comprising at least one attractant.
3. A composition according to claim 2 further comprising at least one humectant.
- 10 4. A composition according to claim 3 further comprising at least one gel former.
5. A composition according to claim 4 further comprising at least one protectant.
6. A composition comprising:
 - 15 (a) soynut butter;
 - (b) at least one a non-monosaccharide sugar; and
 - (c) at least one pesticide.
7. A composition according to claim 6 further comprising at least one attractant.

8. A composition according to claim 7 further comprising at least one humectant.
9. A composition according to claim 8 further comprising at least one gel former.
- 5 10. A composition according to claim 9 further comprising at least one protectant.
11. A process comprising applying a composition according to claim 1 to a locus where there is at least one type of pest, wherein the amount applied to said locus is effective to control said at least one type of pest in said locus.
- 10 12. A process according to claim 11 wherein said at least one type of pest includes at least cockroaches.
13. A process according to claim 11 wherein said at least one type of pest includes at least termites.
14. A process according to claim 11 wherein said at least one type of pest
- 15 includes at least ants.
15. A process according to claim 11 wherein said at least one type of pest includes at least rodents.
16. A process comprising mixing components (a) , (b), and (c) of claim 1 to produce a composition according to claim 1.
